

TVHA Vegetation Management Committee Agenda Items and Report

September 27, 2021

1. Consider proposal for removal of vegetation in area as specified in attached map.
Recommend acceptance of proposal by Ramos Domingo in the amount of \$680.00. See attached bid form and bids.

All eight property owners on Timber Heights have been notified about this project and no feed back received. The project borders the property owners of lots 61, 62, & 63. See map.

There could be some volunteer follow up to this project with some trimming and limbing up after brush is removed.

Much of the growth is dead

2. Consider removing brush from behind guard rail on Timber Ridge. This would be a volunteer project.

3. Several residents have volunteered to plant flower bulbs near the monuments.
4. The removal of vegetation over rock drain area approved at the last meeting will be experimented with now that dry season is ending.
